

CASINO & GAMING SECURITY

At LINSTAR Security, we understand the unique needs of the gaming industry and provide tailored solutions to enhance security, streamline operations, and optimize player experiences. As a leading provider of comprehensive security solutions, we offer a range of products and services specifically designed for the gaming market.

Access Control

Access control solutions keep employees and guests safer by limiting and monitoring authorized access to rooms and areas. Allow employee access to specific areas by setting varying levels of security clearance depending on individual employees' needs and authorization.

Video Surveillance

Ensure safety in the casino while protecting your assets with a commercial video surveillance system. Day or night, the use of surveillance cameras are a proven deterrent and help you capture and track suspicious activity.

Intrusion Detection

Intrusion alarm is a standalone or integrated component of commercial security systems. Intrusion components include control panels, keypads, sensors, alarm and sounding devices that can be implemented around your casino.

Alarm Monitoring

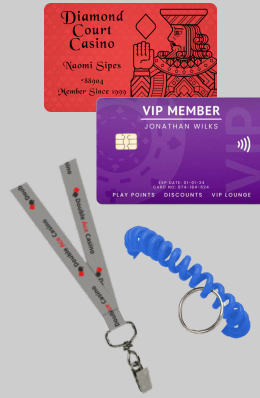

Remote security and alarm system monitoring services for your casino. As an add-on to your commercial security system, services may include automated alerts of intrusion, alarm, and more.

CASINO & GAMING

Our casino printers includes cutting-edge print, encoding devices, and sophisticated software solutions. Equipped with the latest technologies, our systems seamlessly integrate with your existing infrastructure, enabling smooth card issuance, encoding, and tracking. With our innovative products, casinos can streamline operations and deliver a great experience to players.

LINSTAR Security is a supplier of blank and pre-printed player cards compatible with Open Card systems. Design these cards with your logo, colors, or pictures that help guests identify your brand with ease.

Help your guests keep their loyalty cards, game cards, or hotel cards safe and close by with custom badge accessories.

Face detection is an effective tool for casinos and other gaming facilities to catch and identify unwanted or banned patrons from the premises. Face detection is just as effective for identifying VIP guests for faster recognition and VIP customer service. The system utilizes unlimited custom automated alerts and investigative tools to allow for analyzing videos and photos of incidents.

Enhance security and streamline operations at your casino or gaming facility with touchless security screening. Our cutting-edge technology offers a game-changing solution to meet the evolving security challenges in the industry while prioritizing the safety and convenience of your patrons.
