LINSTAR
SECURITY

SECURITY FOR TRANSPORTATION SERVICES

Transportation providers turn to LINSTAR Security to help monitor and track commuters and transportation staff.

TAKE YOUR SECURITY TO THE NEXT LEVEL

LINSTAR Security specializes in providing customized security solutions for the transportation industry. Our systems are designed to enhance the safety and efficiency of transportation operations.

Access Control

Access control solutions are used grant entry for authorized personnel to secure areas of airports, bus stations, and train stations.

Video Surveillance

Protect commuters and staff with a commercial video surveillance system. Monitor activity, generate alerts, and store footage of events.

ID Badges & Transit Cards

Transit cards are passes for using transportation services like buses and trains. LINSTAR Security provides pre-printed cards to transit organizations to easily customize with member names and data using an in-house ID card printer.
