

You've tried hard.
NOW TRY EASY.

Card printing without support calls. Seriously!

If you're saying this about your card solutions,
something's wrong.

- "I need a master's degree to set it up."
- "Error messages have me speed dialing tech support all day."
- "I have no clue how to load these cards and adjust for thickness."
- "Every time I change the ribbon, I want to change my job."

Commands all card solution printers should obey.

- **Simplify Every Touchpoint.**
Less training. No complaining.
- **Print Everything from Almost Anywhere.**
If you can imagine it, you can print it.
- **Fit Anywhere.**
Any place on your desk or counter will work.
- **Extend My Investment.**
From security to management to applications.

**What's Inside
Your Printers Matters.**

You buy a printer. Then what?
You still need to integrate, secure, and
manage it. Consider it done with Print
DNA, the intelligence built into these
Link-OS™ card printers.

Push satisfaction up and stress levels
down with the ZC100/ZC300 SERIES.

Easy Input. Exceptional Output.

THE CHOICE IS SIMPLE.

Configuration a Child Can Do

Plug it in, and set-up is done.

Picture Perfect Instructions

Icons, animations and text messages alleviate confusion.

Easy through Thick and Thin

The feeder automatically adjusts to card thickness.

A Feeder that Won't Frustrate

It's as simple as inserting an ATM card.

Fool-proof Ribbon Changing

There's no question how to remove and insert the ribbon.

Loading and Removing Cards? Nothing to It.

Saloon-style doors open as easily as a car door.

Unfriendly Only to Unauthorized Users

Prevent printer theft and breaches with data encryption and authentication.

Almost Anywhere Connectivity

Print from USB, Ethernet and Wi-Fi connectivity.

Blue Sky Printing

Create it all: single or dual-sided cards, metallic, hologram, encoded, laminated, and more.

Fluent in Simplicity

Support 10 languages, including Chinese, Arabic, Russian and Brazilian Portuguese.
