

GOVERNMENT SECURITY

LINSTAR Security is a security system integrator for security systems. Whether you require access control, video surveillance, security screening, or other security solutions, we have you covered.

Access Control

Access control solutions keep employees and inventory safer by limiting and monitoring authorized access to rooms and areas. Allow employee access to specific areas by setting varying levels of security clearance depending on individual employees' needs and authorization.

Video Surveillance

Ensure safety in the facility while protecting your assets with a commercial video surveillance system. Day or night, the use of surveillance cameras are a proven deterrent and help you capture and track activity.

Weapon Detection

Weapon Detection Systems represent a significant advancement in physical security at key entrance points for buildings and events. The technology used in modern weapon detection solutions is transforming the way organizations approach security.

Intrusion Detection

Intrusion alarm is a standalone or integrated component of commercial security systems. Intrusion components include control panels, keypads, sensors, alarm and sounding devices.

Alarm Monitoring

Remote security and alarm system monitoring services for your storefront, office space or commercial building. As an add-on to your commercial security system, services may include automated alerts of intrusion, alarm, and more.

GOVERNMENT MARKET

LINSTAR Security provides tailored identification, tracking, and security solutions for government entities at all levels. Our products and services enhance government operations.

ADDITIONAL SOLUTIONS

Employee ID Badges

LINSTAR Security is a provider of ID card printers, software, supplies, and accessories needed to implement an ID badge program.

Multi-Factor Authentication

Implement a MFA solution for all of your important hardware and software assets at your organization.

Visitor Management

Increase security by identifying and tracking visitors at your facility with including software, kiosks, and time-expiring badges.

TRACKING

Asset Tracking

Track and manage people, parts, products, or equipment. LINSTAR Security offers tracking solutions to track activity, assign assets, review history, print reports, and more.

Attendance Tracking

Attendance tracking systems from LINSTAR Security can be used to track barcode, QR, NFC, RF, proximity, smart credential and handheld mobile device technologies.

Emergency Mustering and Evacuation Tracking

LINSTAR Security offers an emergency evacuation and employee mustering solution which uses rugged handheld badge readers to verify that personnel and visitors are accounted for and safely evacuated during emergency situations.
